

**Town of Sullivan's Island  
Council Workshop**

**Monday, September 12, 2016  
6:00 p.m.**

**Town Hall, 2050-B Middle Street**

- 1. Administrator's Report**
- 2. Finance Committee**
- 3. Recreation Committee**
- 4. Public Facilities Committee**
- 5. Land Use & Natural Resources Committee**
- 6. Administration Committee**
- 7. Water & Sewer Committee**
- 8. Public Safety Committee**

## **ADMINISTRATOR'S REPORT TO TOWN COUNCIL**

**September 12, 2016**

### **I. Council Correspondence**

#### **A. New Correspondence**

- 1) Andrea Kozloski – BCD-COG, 09-08-16: Press release for recent announcement of the U.S. Department of Transportation and Federal Transit Administration awarding \$6.1 million funding for bus and related equipment purchase.
- 2) Al Segars D.V.M. SCDNR – Note of appreciation to Officer Poole and Maintenance Department for assistance with manatee fatality.
- 3) David Creech, Creech and Associates, 08-24-16: Proposal and scope of work for Fire Station rehabilitation design.

### **II. Construction Project**

- A. Town Hall and Police Station Building – Work schedule and outlook for occupancy on 9-26-16 remains strong. Remaining exterior activity includes hardscape, parking/paving and shutters. Interior work is focused on flooring, painting and fixture installation. The furniture delivery and installation remains at September 21 to 23. Tentative telephone and I.T. service is set to cut over between September 24 and 25. Trailer Town Hall and Police Station will likely close early afternoon Friday September 23 to begin the transition. Calls will be transferred to a cell telephone. Pay application 14 in the amount of \$364,389.93 is currently under review by the Architect and Owner. The total project with change orders is currently \$4,144,839.73. After Pay Application 14 balance to finish including retainage is \$639,818.87.

### III. General

- A. Parking Plan – The SCDOT has approved the Town parking plan and encroachment permit. The contractor has signed the contract and been given the notice to proceed. Materials have been ordered. Construction is set for late-September.
- B. Boards and Commissions – The expiration of several terms on various boards and commissions will occur in September 2016:
- Board of Zoning Appeals: 2 seats (Brasher, Timmons)
  - Election Commission: 1 seat (Scott)
  - Tree Commission: 2 seats (Cagle, Flaherty)
  - Design Review Board: 4 seats (Ilderton, Wright, Craver, Webb)
  - Planning Commission: 3 seats (Cole, Huey and Poletti)

Staff will forward the latest application package after the final deadline.

- C. Station 26 Boat Landing – Bollard installation was completed on Thursday 9-08-16. The road should open by Friday 09-16-16 in order to allow for further compaction of the rock and posts.
- D. FEMA Hazard Mitigation Grant – The two phase grant application for stormwater infrastructure mapping and improvement was submitted on September 2, 2016. The total grant amount is \$1,460,622.20 with Phase I at \$74,459.51 and Phase II \$1,386,162.69.
- E. Personnel – The Fire Department and Town Hall have a combined total of three positions available. Staff is reviewing applications and expects to begin interviewing candidates in the near future.

- F. Charleston County Stormwater Infrastructure Work – Charleston County Public Works will receive FEMA funds to clean stormwater infrastructure based on the October 2015 rainfall event. Crews will be cleaning piped collection infrastructure in late September/early October on Sullivan’s Island, Isle of Palms and Folly Beach.
- G. Ordinance Recodification Project – Staff is prepared to engage American Legal to begin the recodification project. The process is expected to require 12 to 14 months to complete. Ellen Miller will coordinate the project.

## **REGIONAL PUBLIC TRANSIT TO RECEIVE \$6.1 MILLION IN FEDERAL FUNDS FOR COMMUTER BUSES**

*Funding is part of a competitive \$211 million national program*

**CHARLESTON, S.C. (Sept. 8, 2016)** – The [Berkeley-Charleston-Dorchester Council of Governments](#) will receive \$6.1 million to purchase commuter-style buses and related equipment in the Charleston region, the the U.S. Department of Transportation and Federal Transit Administration announced today.

The funds will be put to use by the [Charleston Area Regional Transit Authority](#), the grant sub-recipient, for the acquisition of 16 40-foot, low-floor buses and related items such as electronic fare boxes, security camera systems, locators, bike racks and more.

"This is a huge win for our region and is another important step toward CARTA's strategic goal of updating its vehicle fleet," said CARTA board chairman Mike Seekings. All of the new purchases will replace current CARTA Express commuter buses.

The BCDCOG, the governmental planning agency that oversees CARTA, received the funding through the FTA's Bus and Bus Facilities Grant Program. Sixty-one projects in 41 states, the Virgin Islands, and Indian Country will share nearly \$211 million to replace, rehabilitate, and purchase transit buses and related equipment, and construct bus-related facilities, according to a USDOT release.

The Bus and Bus Facilities Grant, which will help provide more modern, reliable bus service nationally, is part of the Fixing America's Surface Transportation (FAST) Act, signed by President Obama in December 2015. FTA received 284 applications that totaled \$1.64 billion from 236 applicants in 47 states. The competitive bus grant program is authorized through 2020.

A list of the selected projects is [available here](#).

"The Obama Administration is committed to improving transportation options that connect people in rural and urban areas across the country to opportunities," said U.S. Transportation Secretary Anthony Foxx. "These grants will improve mobility for thousands of transit riders who depend on bus service every day, expanding access to employment, education, healthcare, and other important services in their communities."

Selected projects include those that replace, rehabilitate, and purchase buses and related equipment as well as projects to purchase, rehabilitate and construct bus-related facilities, such as buildings for bus storage and maintenance, according to the USDOT.

## **About CARTA**

The Charleston Area Regional Transportation Authority (CARTA) is a public transportation system dedicated to providing affordable transit to the Charleston community through fixed routes, Tel-A-Ride/demand service and express routes. For the latest on CARTA, visit [www.ridecarta.com](http://www.ridecarta.com), like us on [Facebook](#) or follow on Twitter at [@RideCARTA](#). All customers are encouraged to map rides and track buses with [Google's Transit program](#) and the [CARTA Bus Tracker](#).

[dbrock@rawlemurdy.com](mailto:dbrock@rawlemurdy.com)

Andy,

Just want to thank your staff  
for the support we got dealing with  
the dead manatee on beach.

Officer Poole was great - could not  
have been more helpful. Please  
thank him for me.

We do not always get such a  
great response when we ask for  
help from municipalities. You made  
our job much easier with your  
prompt and friendly support.

Thanks!

Carl Segars, D.M.

Charleston, SC 29422-2559

August 24, 2016

Mr. Andy Benke  
Town Manager  
Town of Sullivan's Island  
PO Box 427  
Sullivan's Island, SC 29482

AUG 29 2016

**Re: Town of Sullivan's Island  
Fire Station Exterior Renovation Proposal**

Andy Benke  
Town Manager

Re: Town of Sullivan's Island  
Fire Station Renovation Design Proposal

Creech & Associates is pleased to present a proposal to provide design services relative to the renovation of the Sullivan's Island Fire Station. The following is our understanding of the scope of this project to date:

- Replace the existing siding with a cementitious siding like that being used on the Town Hall
- Replace porch flooring, railing, and columns, similar to the Town Hall
- Re-use brackets intended for Town Hall in gable soffit areas (if possible)
- Add air barrier over existing sheathing after siding is removed
- Paint existing roof a color to compliment Town Hall
- Replace windows with windows similar to Town Hall
- Insulate second story roof/ceiling cavity
- New landscaping on Middle Street
- Enclosure or lattice work to dress up new stair

\*It is our understanding that the funds available for this project are undetermined at this time and a prioritization of scope may need to occur.

Creech & Associates shall provide the Town with the following deliverables for the execution of this project:

**Conceptual/ Schematic Design (25%)**

- Building elevations of all sides illustrating the proposed finish product (similar to the sketch previously provided and attached but showing all elevations).

**Design Development (25%)**

- Demolition plans
- Porch floor plans
- Roof plans
- Building Elevations
- Reflected ceiling plan
- Outline specifications
- Cost Estimate (provide by a cost consultant)

**Construction Documents (50%)**

- Demolition plans
- Porch floor plans
- Roof plans
- Building Elevations
- Reflected ceiling plan
- Sections and Details
- Finish Schedule
- Temporary evacuation plans
- Specifications and Bidding Requirements

AUG 29 2016

Creech & Associates proposes to provide the above services for a fee equal to ten percent of the cost of construction plus standard reimbursable expenses. Those expenses shall include travel, printing, plots, special consultants such as cost estimator and building envelope consultant. Assistance with bidding and construction administration shall be billed hourly since the actual scope is not confirmed at this time and may not be determined until the Design Development Phase cost estimate. If the scope is reduced after the Design Development Phase, we will bill accordingly (50% of 10% of the DD estimate)

This fee does not include pre-design, LOD's, any structural, civil or MEP engineers due to the current scope not needing that service and pre-construction services. Through the design process if the tenant decides to include any specialized equipment, this will require a meeting with the tenant to establish the scope. Once the scope is determined, an additional proposal will be prepared at that time for the specialty items.

Additional Services, such as those listed above, are available at the following hourly rates:

Managing Principal	\$250.00
Senior Designer/Associate/Team Leader	\$210.00
Project Architect	\$200.00
CAD/Technical	\$165.00

Creech & Associates appreciates the opportunity to bring the necessary experience to the project in order to make this a seamless effort between demolition and the new renovation. If you have any questions, please feel free to contact us. We are available to begin work immediately and upon notice to proceed we will prepare a standard AIA contract.

Again, thank you for your consideration.

Yours truly:  
Creech & Associates, PLLC

Accepted:

# Flooding of Coast, Caused by Global Warming, Has Already Begun

Scientists' warnings that the rise of the sea would eventually imperil the United States' coastline are no longer theoretical.

By JUSTIN GILLIS SEPT. 3, 2016

NORFOLK, Va. — Huge vertical rulers are sprouting beside low spots in the streets here, so people can judge if the tidal floods that increasingly inundate their roads are too deep to drive through.

Five hundred miles down the Atlantic Coast, the only road to Tybee Island, Ga., is disappearing beneath the sea several times a year, cutting the town off from the mainland.

And another 500 miles on, in Fort Lauderdale, Fla., increased tidal flooding is forcing the city to spend millions fixing battered roads and drains — and, at times, to send out giant vacuum trucks to suck saltwater off the streets.

For decades, as the global warming created by human emissions caused land ice to melt and ocean water to expand, scientists warned that the accelerating rise of the sea would eventually imperil the United States' coastline.

Now, those warnings are no longer theoretical: The inundation of the coast has begun. The sea has crept up to the point that a high tide and a brisk wind are all it takes to send water pouring into streets and homes.

Federal scientists have documented a sharp jump in this nuisance flooding — often called “sunny-day flooding” — along both the East Coast and the Gulf Coast in recent years. The sea is now so near the brim in many places that they believe the

problem is likely to worsen quickly. Shifts in the Pacific Ocean mean that the West Coast, partly spared over the past two decades, may be hit hard, too.

These tidal floods are often just a foot or two deep, but they can stop traffic, swamp basements, damage cars, kill lawns and forests, and poison wells with salt. Moreover, the high seas interfere with the drainage of storm water.

In coastal regions, that compounds the damage from the increasingly heavy rains plaguing the country, like those that recently caused extensive flooding in Louisiana. Scientists say these rains are also a consequence of human greenhouse emissions.

“Once impacts become noticeable, they’re going to be upon you quickly,” said William V. Sweet, a scientist with the National Oceanic and Atmospheric Administration in Silver Spring, Md., who is among the leaders in research on coastal inundation. “It’s not a hundred years off — it’s now.”

Local governments, under pressure from annoyed citizens, are beginning to act. Elections are being won on promises to invest money to protect against flooding. Miami Beach is leading the way, increasing local fees to finance a \$400 million plan that includes raising streets, installing pumps and elevating sea walls.

In many of the worst-hit cities, mayors of both parties are sounding an alarm.

“I’m a Republican, but I also realize, by any objective analysis, the sea level is rising,” said Jason Buelterman, the mayor of tiny Tybee Island, one of the first Georgia communities to adopt a detailed climate plan.

But the local leaders say they cannot tackle this problem alone. They are pleading with state and federal governments for guidance and help, including billions to pay for flood walls, pumps and road improvements that would buy them time.

Yet Congress has largely ignored these pleas, and has even tried to block plans by the military to head off future problems at the numerous bases imperiled by a rising sea. A Republican congressman from Colorado, Ken Buck, recently called one military proposal part of a “radical climate change agenda.”

The gridlock in Washington means the United States lacks not only a broad national policy on sea-level rise, it has something close to the opposite: The federal government spends billions of taxpayer dollars in ways that add to the risks, by subsidizing local governments and homeowners who build in imperiled locations along the coast.

As the problem worsens, experts are warning that national security is on the line. Naval bases, in particular, are threatened; they can hardly be moved away from the ocean, yet much of their land is at risk of disappearing within this century.

“It’s as if the country was being attacked along every border, simultaneously,” said Andrea Dutton, a climate scientist at the University of Florida and one of the world’s leading experts on rising seas. “It’s a slow, gradual attack, but it threatens the safety and security of the United States.”

## ‘We’re Living It’

One night eight years ago, Karen Speights, a Norfolk resident, was sitting at the dinner table with her mother, eating crab legs dipped in butter and a tangy sauce. She felt a tingle.

“Ma!” she cried. “My feet are wet!”

Her mother laughed, but then she felt it, too: a house that had not flooded since the family moved there in 1964 was soon awash in saltwater. Ms. Speights initially hoped that flood was a fluke. Instead, it turned out to be the first of three to hit their home in less than a decade.

Nowadays, Ms. Speights, an administrative worker at a utility company, is wondering how to get her and her mother out of the neighborhood before the water comes again, without taking too much of a financial hit. And she pays more attention to problems that once seemed remote, like warnings from scientists about the rising sea.

“I believe it because we’re living it,” Ms. Speights said as she sat on her sofa, nodding toward the nearby tidal marsh that sent water into her living room. “The

water has to be rising if we never flooded, and all of a sudden we've flooded three times in eight years."

Because the land is sinking as the ocean rises, Norfolk and the metropolitan region surrounding it, known as Hampton Roads, are among the worst-hit parts of the United States. That local factor means, in essence, that the region is a few decades ahead in feeling the effects of sea-level rise, and illustrates what people along the rest of the American coast can expect.

The biggest problems involve frequent flooding of homes and roads. As the sea rises, hundreds of tidal creeks and marshes that thread through the region are bringing saltwater to people's doorsteps.

This summer, on a driving tour of Norfolk and nearby towns, William A. Stiles Jr. pointed to the telltale signs that the ocean is gradually invading the region.

He spotted crusts of dried salt in the streets, and salt-loving marsh grasses that are taking over suburban yards. He pointed out trees killed by seawater. He stood next to one of the road signs that Norfolk has been forced to install in recent years, essentially huge vertical rulers so people know the depth of floodwaters at low-lying intersections.

"There's just more and more visible impacts: water on the street, water that won't clear from the ditch, these intense rain events, higher tides," Mr. Stiles said.

"It's beginning to catch the attention of citizens, restaurant owners, business people, politicians. There's just much more of a conversation, and it's not just in the politically safe places. It's everywhere."

Mr. Stiles, known as Skip, heads a local environmental group, Wetlands Watch. At his suggestion, students at two local universities began looking at the neighborhood where Ms. Speights lives, Chesterfield Heights. It has had little history of flooding, but that is starting to change as the water rises.

The plan the students developed has morphed into an ambitious program to safeguard the neighborhood, and another nearby, for decades. The Obama administration recently gave Virginia more than \$100 million to carry the plan out.

The administration has also enlisted one of the universities, Old Dominion in Norfolk, to spearhead a broad effort at better planning.

But the size of that grant illustrates the scope of the problem confronting the region, and the country: protecting a single neighborhood from rising water can easily cost tens of millions of dollars. Sea walls and streets may have to be raised, or movable gates built along waterways so they can be closed at times of high water.

While the Obama administration is trying to create a few showcase neighborhoods, there is no sign Congress is prepared to spend the money that cities and states say they need: tens of billions of dollars just to catch up to the current flooding problems, much less get ahead of them. Norfolk alone, a town of 250,000 people, has a wish list of \$1.2 billion — or about \$5,000 for every man, woman and child in the city.

As the national response lags, experts warn that the flooding is putting the country's defense at risk.

Several studies have concluded that Naval Station Norfolk, the world's largest naval base, is profoundly threatened by rising seas, as are other coastal bases. The Pentagon has managed to build floodgates and other protective measures at some facilities. But attempts by the military to develop broader climate change plans have met fierce resistance in Congress.

That was the case this summer, when an effort by the Pentagon to appoint officers to take charge of climate resilience led to a House vote prohibiting taxpayer money from being spent on the plan.

“When we distract our military with a radical climate change agenda, we detract from their main purpose of defending America from enemies” like the Islamic State, said Mr. Buck of Colorado, the Republican congressman who sponsored the measure. His amendment passed the House 216 to 205, though the Senate has yet to agree to it.

Many people in Congress, almost all of them Republicans, express doubt about climate science, with some of them promulgating conspiracy theories claiming that

researchers have invented the issue to justify greater governmental control over people's lives. So far, this ideological position has been immune to the rising evidence of harm from human-induced climate change.

The Obama administration has been pushing federal agencies, including the Pentagon, to take more aggressive steps. But without action in Congress, experts say these efforts fall far short of what is required.

"In the country, certainly in the Congress, it hasn't really resonated — the billions and perhaps trillions of dollars that we would need to spend if we want to live on the coast like we're living today," said David W. Titley, a retired rear admiral who was the chief oceanographer of the Navy, and now heads a climate center at Pennsylvania State University.

"I haven't seen any evidence that there is serious thought about this: What does a world of three, four, five feet of sea-level rise look like?"

## Mounting Evidence

Deep in a thicket of trees on an out-of-the-way island in the Florida Keys, a diesel engine roared to life. Soon a drill bit was chewing through ancient limestone, pulling up evidence from the geological past that might shed light on the future of the planet.

On a sultry day in March, Dr. Dutton, the University of Florida scientist, stood watch over the drilling operation, inspecting her samples as they emerged from the ground. She spotted fossilized corals, proof that what is now the dry ground of Lignumvitae Key was once underwater.

With taxpayer funding from the National Science Foundation, Dr. Dutton is chasing what might be the most urgent question in climate science: How fast is the ocean going to rise?

"Is it going to happen in decades, or centuries, or a thousand years?" Dr. Dutton asked as she took a break to eat lunch on a tarpaulin spread under the trees. "This

will give us an example to say, ‘Well, the last time this happened, here is how long it took.’”

The opponents of climate science in Congress, and the tiny group of climate researchers allied with them, have argued that the concerns of thousands of mainstream scientists about the future are based on unproven computer forecasts.

In reality, their concerns are based in large part on mounting evidence of what has happened in the past.

Through decades of research, it has become clear that human civilization, roughly 6,000 years old, developed during an unusually stable period for global sea levels. But over longer spans, coastlines have been much more dynamic.

During ice ages, caused by wobbles in the Earth’s orbit, sea levels dropped more than 400 feet as ice piled up on land. But during periods slightly warmer than today, the sea may have risen 70 or more feet above the current level.

Dr. Dutton and other leading scientists are focused on the last sea-level high point, which occurred between the last two ice ages, about 125,000 years ago.

After years of surveying ancient shorelines around the world, scientists determined that the sea level rose by something like 20 to 30 feet in that era, compared with today. But how long did it take to make that jump? That is the question Dr. Dutton, using improved research techniques, wants to answer.

Large parts of the Florida Keys are simply ancient coral reefs that grew during the period of high seas, and were exposed when the levels fell. Trees, roads and houses now sit atop the old reefs. By recovering samples, Dr. Dutton hopes to date a sequence of corals as they grew along with the rising sea, potentially revealing the rate at which the water rose.

The research, likely to take years, may supply a figure for how quickly the ocean was able to rise under past conditions, but not necessarily a maximum rate for the coming decades. The release of greenhouse gases from human activity is causing the planet to warm rapidly, perhaps faster than at any other time in the Earth’s history.

The ice sheets in both Greenland and West Antarctica are beginning to melt into the sea at an accelerating pace.

Scientists had long hoped that any disintegration of the ice sheets would take thousands of years, but recent research suggests the breakup of West Antarctica could occur much faster. In the worst-case scenario, this research suggests, the rate of sea-level rise could reach a foot per decade by the 22nd century, about 10 times faster than today.

In 2013, scientists reached a consensus that three feet was the highest plausible rise by the year 2100. But now some of them are starting to say that six or seven feet may be possible. A rise that large over a span of decades would be an unparalleled national catastrophe, driving millions of people from their homes and most likely requiring the abandonment of entire cities.

In essence, by revealing how sensitive the ice sheets have been to past warming, Dr. Dutton's research may answer the question of whether such a rapid jump is possible.

Along those parts of the United States coast that are sinking at a brisk clip, including southern Louisiana and the entire Chesapeake Bay region, including Norfolk, the situation will be worse than average. On the Pacific Coast, a climate pattern that had pushed billions of gallons of water toward Asia is now ending, so that in coming decades the sea is likely to rise quickly off states like Oregon and California.

Along the East Coast, scientists with the National Oceanic and Atmospheric Administration say that many communities have already, or will soon, pass a threshold where sunny-day flooding starts to happen much more often.

"When you look at the historical record, there's no trend saying the flooding is going down," said Dr. Sweet, the NOAA expert. "The trends are all very clear. They're going up, and they're going up in many of these areas in an accelerating fashion."

Late last year, in Paris, nations reached a landmark global agreement to cut emissions. It is fragile, and might not survive if Donald J. Trump is elected president in November; he has pledged to scrap it.

But the air is already so full of greenhouse gases that most land ice on the planet has started to melt. So even if the deal survives, it will, at best, slow the rise of the sea and perhaps limit the ultimate increase. Many climate scientists, including Dr. Dutton, believe a rise of at least 15 or 20 feet has already become inevitable, over an unknown period.

## Facing Hard Decisions

As Brad Tuckman walked the piece of land in Fort Lauderdale where he is building a grand new house, he pointed toward the canal that wraps around three sides of the property.

It is scenic, with yachts plying the water, yet as the sea has risen, street flooding in the area has become a recurring nuisance. So before starting construction, Mr. Tuckman said he spent nearly a half-million dollars to raise the sea wall and truck in dirt to elevate the land.

“The predictions of what’s going to happen over the next 20, 30, 40 years — it’s real,” said Mr. Tuckman, the founder of a company offering creative services to the retail industry.

In South Florida, among the worst-hit parts of the country for sunny-day flooding, people are not waiting for state or federal help. Those who can afford it are starting to act on their own. A company, Coastal Risk Consulting, has cropped up to advise them, and is offering its services nationally.

Cities and counties in the region have formed an alliance and enlisted professors to help them figure out what to do. They are hiring “chief resilience officers,” an idea pioneered by the Rockefeller Foundation in New York, which is paying some of the salary cost.

In Miami Beach and Fort Lauderdale, as well as in older Northern cities like Boston and New York, tidal marshes and creeks were filled in a century or more ago to make new land, and it is in these areas — “back bays,” as some of these spots are called — where the flooding is happening first.

That is because they remain the lowest spots in the landscape, vulnerable to the rising water nearby. Old drain pipes empty into the tidal creeks, and at high tide the water can back up through these pipes, bubbling into the streets seemingly from nowhere.

In Miami Beach, the city engineer, Bruce A. Mowry, has come up with a plan for combating the flooding. He rips up problematic streets, raises them with extra dirt and repaves them, installing new drains and giant pumps that can push water back into the bay. The approach has already been shown to work in several neighborhoods.

A controversy has erupted about whether Miami Beach is polluting Biscayne Bay with the water, but the city is pushing ahead. Miami Beach plans to spend at least \$400 million on its plan by 2018, raising the money through fees imposed on homes and businesses.

The huge county government for the region, Miami-Dade County, is developing its own resilience strategy, one likely to cost billions. It has committed to rebuilding some of its decaying infrastructure, like a sewage plant, in a way that safeguards against sea-level rise and storm surges.

“I don’t see doom and gloom here; I see opportunity,” said Harvey Ruvin, the clerk of courts for Miami-Dade County, who has been a leading voice on the environment in Florida for a half-century, and who recently led a county task force on sea-level rise. “We’re talking about the most robust possible jobs program you can think of, and one that can’t be outsourced.”

Many of the Republican mayors in the region are on the same page as Democrats in requesting national and state action on climate change, as well as pushing local steps. James C. Cason, the Republican mayor of Coral Gables, has

convened informational sessions that draw hundreds of residents, and he has received no complaints for his stance.

“I hope in coming years when we have to spend a lot of money, the citizens will still support it,” Mr. Cason said in an interview.

Still, his city, and others in South Florida, have some hard decisions to make.

Some property owners cannot afford to raise their sea walls, putting their neighborhoods at increased risk of flooding. Will they be held legally responsible when floods do occur? A strict policy could force some people from their homes. Conversely, should public money be spent to do the work, even if it largely benefits private property?

Just for streets, storm drains and the like, South Florida governments will need to raise billions, and they have yet to figure out how. Moreover, if the rise of the sea accelerates as much as some scientists fear, it is doubtful the cities will be able to keep up.

The region has one mayor, Philip K. Stoddard of South Miami, who is a scientist himself — he studies animal communication at Florida International University — and has been a close reader of scientific papers about climate change since the 1990s.

“I remember lying in bed at night thinking, ‘I hope this isn’t real,’” Dr. Stoddard, a Democrat, recalled. “I hope other data comes in that contradicts it. It took me several years to get my head around it and say, ‘Oh, God, it is real.’”

Now he is focused on easing the pain for South Miami, with a \$50 million system of sewer pipes to replace septic tanks threatened by the rising water table.

“You can play it really badly and let unpleasant things happen earlier,” he said. “Or you can push them off by doing some infrastructure repairs and some thoughtful planning.”

He is, though, under no illusions about the long-term fate of the region he calls home.

“We’re putting enough heat in the ocean to send water over us, no question,” Dr. Stoddard said. “Ultimately, we give up and we leave. That’s how the story ends.”

A version of this article appears in print on September 4, 2016, on page A1 of the New York edition with the headline: Global Warming’s Mark: Coastal Inundation .

**RECREATION  
COUNCIL WORKSHOP  
September 12, 2016**

**Chairwoman Sarah Church  
Members Rita Langley and Susan Middaugh**

All matters relating to the creation, expansion or improvement of facilities and programs in the area of parks and recreation; and community wellness programs.

***I. Matters for Action by Council***

1. Battery Gadsden Cultural Center- amendment to lease agreement to allow the Town of Sullivan's Island to perform repairs to Battery Gadsden

**II. Matters for Discussion by Council**

1. Battery Gadsden Cultural Center – general update
2. Island Club lease agreement for 1451 Hennessy Street- amendment to allow the Town of Sullivan's Island to perform repairs to the building

**III. New Matters Presented to Council**

1. Improvements to Stith Park landscaping upon completion of Town Hall – discussion of possible funding and plans

**IV. Matters Pending Further Action by Council**

1. Drainage and Erosion on the Mound – Awaiting study on how to best manage storm water on the mound and repair erosion. Town Council voted to accept bid by Thomas & Hutton on 4/19/16
2. Bamboo on the Mound – Consideration of trimming bamboo back on the mound and near the field. This is on hold until improvements are made to the drainage on the mound.
3. RFP for repairs and improvements to 1451 Hennessy Street, occupied by the Island Club. RFP was approved on 6/21/16 by Town Council. Awaiting release by Town staff. Action required once responses are received.
4. Fireworks for 2017 Independence Day – scheduling for 7/4

5. Farmers Market 2017- consideration for full season market- to be discussed at Recreation Committee meeting to be scheduled in near future

**Request for Proposals:  
Structural Repairs & Construction at 1451 Hennessy Street (The Island Club)**

Opening of candidate packages summary  
Tuesday, September 6, 2016  
Town Hall, 2050-B Middle Street, Town of Sullivan's Island

Asst. to Town Administrator Darrow acknowledged it as being 1:00 p.m. E.S.T., Tuesday, September 6, 2016, the deadline for candidate submittals from contractors to structural repairs and construction for The Island Club (1451 Hennessy Street).

Present: Asst. to Administrator Darrow (Staff); one (1) member of public: Mr. Maynard Wren, Treat and Woodman Construction, who did not submit a bid

**The Town received one (1) submittal:**

<b>1.) IPW Construction</b>	<b>\$43,076.00 (aggregate)</b>
P.O. Box 40968	
(7623 Dorchester Road)	
Charleston, SC 29423-0968	
Office (843) 308-0524	
FAX (843) 308-6650	
<b>Sebastian White, Project Manager</b>	
White's direct number: (843) 696-5539	

There being no other candidates, the receipt of candidate packets closed at 1:03 p.m.

# Battery Gadsden Cultural Center

[www.batterygadsden.com](http://www.batterygadsden.com)

**Thursday, September 15, 2016, 6:00-7:00P.M.**

**Venue\*: Fort Moultrie Visitor Center Auditorium**

**Artist Richard “Duke” Hagerty: American Surrealist**

Duke Hagerty, a well-known Charleston artist, will present his imaginative art in an illustrated talk about his work and his deep roots on Sullivan’s Island.

VENUE NOTE \*: Venue has changed from Battery Gadsden Cultural Center. The Fort Moultrie Visitor Center is air-conditioned and has ample seating for all who wish to attend.

Presented by Battery Gadsden Cultural Center  
Co-sponsored by the National Park Service

**PUBLIC FACILITIES  
COUNCIL WORKSHOP**

**September 12, 2016**

**Chairman Bachman Smith IV**

**Members Chauncey Clark and Mark Howard**

All matters relating to construction, maintenance and improvements of streets, beach paths and Town-owned buildings; sanitation services including trash and garbage; storm water management; and energy and resource conservation programs.

**Monthly Construction Report Presented by Mr. Robinson (if needed).**

**Town Hall construction update by C. Clark.**

**I. Matters for Action by Committee:**

A.

**II. Matters pending discussion in Committee  
(may include items currently for discussion by Council)**

- A. Planning for public facilities and historic structure aesthetic improvements to grounds and the need for a Budget line item
- B. Review of Space Needs Reports from all departments

**III. Matters for Action by Council**

A.

**IV. Matters for Discussion by Council**

- A. Sta. 17 Old Water Plant area/fence design (Water and Sewer topic)

**V. New Matters Presented to Council**

A.

**VI. Matters Previously Discussed and Not Yet Implemented  
(other than mention these will not be discussed but for questions received)**

- A. Art wall/display area in the new Town Hall.
- B.

**VII. Recently Resolved (items will remain for a month after resolution/implementation)**

- A. Sta 26 boat landing rehabilitation and use is now limited to non-motorized watercraft to be enforced with bollards (installed 9/8/16)
- B. Sta.18 stormwater system evaluation, repair protocol and temporary solution study awarded

**LAND USE AND NATURAL RESOURCES  
COUNCIL WORKSHOP**

**SEPTEMBER 12, 2016**

**Chairman Rita Langley  
Members Chauncey Clark and Pat O'Neil**

All matters relating to the Zoning and Building Ordinances and their Implementation, and Natural Resources including Town-owned land.

**Monthly Zoning Report Presented by Mr. Henderson  
Monthly Boards and Commission Reports Attached**

**I. Matters for Action**

**II. Matters for Discussion**

1. **Island Entrance Sign:** Continued discussion at the next Land Use and Natural Resources Committee.

**III. Activity Update**

1. **Town Comprehensive Plan:** Continued discussion of timeline and funding at the next Land Use and Natural Resources Committee Meeting.
2. **Tree Pruning Ordinance:** Continued to review the Tree Commission's recommendations in Committee.
3. **Tree City USA Designation:** Moving forward with application process.

**IV. New Matters Presented to Council**

1. Consideration for Tree House Regulations.

**V. Matters Pending Further Action by Council**

**AUGUST 2016**  
**LAND USE AND NATURAL RESOURCES COMMITTEE**  
BOARD, COMMISSION & ZONING UPDATE

---

From: Building and Zoning Department  
Prepared For: Land Use and Natural Resources Committee  
Regarding: Board, Commission, & Zoning Update

---

**ZONING PROJECT UPDATE:**

- LUNR Committee: August 26<sup>th</sup> agenda:
  - **Continued-** Town Comprehensive Plan (2018 Update): Discuss timeline and funding for Plan review and update
  - **Defer to Tree Commission-** Tree Pruning Ordinance: Review Tree Commission recommendations
  - **Continued-** Island Entrance Sign (Ben Sawyer Bridge): Review and discuss
  - **Forward for FEMA review-** CRS Program for Public Information Committee – Review recommendations
- Program for Public Information (PPI)-FEMA Community Rating System: Final FEMA review of PPI narrative.
- Comprehensive Plan 2018- Project timeline and budgeting underway
- Public Parking Plan- Final GIS updates for Summer 2016 implementation
- Nonconforming Dwellings: Continue enforcement against illegal long-term rentals
- Short-term Illegal Rental Enforcement-Ongoing

**PLANNING COMMISSION: AUGUST 10, 2016**

A. ITEMS FOR CONSIDERATION

1. **Approved for FEMA final review-**Sullivan’s Island Program for Public Information (CRS-FEMA outreach initiative): Staff requests consideration of the Town’s Program for Public Information (PPI) narrative and final review of flood insurance data and outreach strategies.
2. **Continued-** Historic Design Guidelines: Town Council initiated text amendment to modify Zoning Ordinance §21-97 C. (5) (Criteria for Certificate of Appropriateness) by requiring compliance with the *Secretary of Interior’s Standards for the Treatment of Historic Properties: Guidelines for Preserving, Rehabilitating, Restoring, and Reconstructing Historic Buildings*.

**BOARD OF ZONING APPEALS: AUGUST 11, 2016**

A. SPECIAL EXCEPTION REQUESTS

1. **Approved-** 2850 Jasper Boulevard: Beau Clowney Architects, applicants, request approval of the Accessory Dwelling Unit Special Exception in accordance with Z.O. §21-20 C. (2), Z.O. §21-140, and Z.O. §21-178. (TMS# 529-07-00-030)

B. VARIANCE REQUESTS

1. **Denied-** 414 Patriot Street: William and Jessica Carroll, applicants, request approval of a dimensional variance for the required rear setbacks of the RS Zoning District, Z.O. §21-22 E (1). (TMS# 529-05-00-011)

C. ADMINISTRATIVE APPEALS

1. **Continued-** 2624 I'on Avenue : Bruce Berlinsky, applicant, requests an appeal of an administrative decision relating to use of a 2624 I'on Avenue in accordance with Z.O. §21-20 B. (4), *Lots Containing Two Occupied Dwellings*. (TMS# 529-10-00-026)

**DESIGN REVIEW BOARD: AUGUST 17, 2016**

B. CERTIFICATES OF APPROPRIATENESS–HISTORIC PROPERTIES

1. **Approved-** 2502 Jasper Boulevard: Heather Wilson Architects, applicants, request approval for an addition and new pool on a property located within the Atlanticville Local Historic District. (TMS# 529-06-00-038)
2. **Approved-** 1730 Middle Street: Heather Wilson Architects, applicants, request approval for an addition and alterations to property designated as a Sullivan’s Island Landmark, and modification of the zoning standards for principal building coverage and required side setbacks. (TMS# 523-08-00-046)

C. NON-HISTORIC PROPERTY DESIGN REVIEW

1. **Approved-** 2008 Central Avenue: Swallowtail Architecture, applicants, requests approval of a single-family home construction and modification of the zoning standards for required side setbacks and building foundation height. (TMS# 523-08-00-044)
2. **Approved-** 2414 Jasper Boulevard: Joel Adrian, applicant, requests final approval of a single-family home construction and modification of the zoning standards for principal building square footage, second-story side setbacks and accessory structure design. (TMS# 529-06-00-034)

**TREE COMMISSION: AUGUST 22, 2016**

D. TREE REMOVAL REQUESTS

1. **Approved-** 2414 Jasper Boulevard: Brian Wells, applicant, requests approval to remove two Category I trees; a red cedar (21” DBH- diameter at breast height) and a pine tree (18” DBH) per Zoning Ordinance Section 21-162. B (Application for relocation, or removal and replacement). (TMS# 529-06-00-034)

**TOWN OF SULLIVAN'S ISLAND, SOUTH CAROLINA  
LAND USE & NATURAL RESOURCES COMMITTEE OF COUNCIL**

Friday, August 26, 2016

Committee met at 9:00AM., this date, at Town Hall, 2050-B Middle Street, all requirements of the Freedom of Information Act having been met. Present were Committee members Councilmember Rita Langley (Chair), Mayor Pat O'Neil and Councilmember Chauncey Clark; Staff: Zoning Administrator Henderson, Asst. to Administrator Darrow and Building Official Robinson.

- 1. Call to Order.** Chair Langley called the meeting to order, stated the press and public were duly notified pursuant to state law and all members were present; 15 audience members (1 media).
- 2. Meeting Agenda: Committee accepted published agenda with no changes**
- 3. Town Comprehensive Plan (2018 Update): Discuss timeline and funding for Plan review and update**

Zoning Administrator Henderson:

- SC Code Title 6, Chapter 29 requires a rewrite of a Town's strategic long range plan every 10 years and an update every 5 years; Town is due for full 10-year review in 2018; last update was 2013 and last full re-write was 2008.
- Previously the Town used the BCD-COG for the 1998 and 2008 Plan re-write.
- Staff recommends the following:
  - Timeline: strive for spring 2017 kick-off
  - Change to format of Plan for web accessibility and to make the Plan readable for residents
  - Obtain planning consultant to spearhead the design, format and preparation of the Plan. Obtain quotes from BCD-COG and private consulting firms.

Zoning Administrator Henderson meets with Katherine Basha of BCD-COG on August 29, 2016 to discuss scope of services BCD-COG can offer.

**Public Questions/Comments:**

*Wayne Guckenberger, 2105 Pettigrew*, questioned the cost of previous Plan updates and why other municipalities update their plans on different timelines.

Zoning Administrator Henderson noted the Town paid BCD-COG in 2008 \$5,000 for a re-write of the Comprehensive Plan, using the 1998 Plan format. Municipalities update their Plans different years, depending upon their previous re-write: the 10-year rewrite requirement begins from the last full Plan re-write/update.

## **Retain Comprehensive Plan Update (2018) on Committee's next agenda**

### **4. Tree Pruning Ordinance: Review Tree Commission Recommendations**

Zoning Administrator Henderson

Background:

- Resident questioned guidelines for regulating tree pruning with the Tree Commission
- Town ordinances do not regulate this activity – currently ordinance language is subjective and unenforceable;
- Tree Commission expressed the goal of protecting big trees, namely grand live oaks as it reviewed pruning processes for neighboring communities. Commission recommends establishing an ordinance to address tree pruning that would apply industry standards (ANSI 300) to large trees (16" dbh or larger)
- New process would be: owner (or representative) permits a tree pruning permit (no fee); staff would evaluate and approve trimming.

#### **Committee Questions:**

Committee asked what is incorporated in ANSI 300 standards.

Staff: ANSI 300 standards are a catalog of standards that refer to tree pruning related to tree protection of root systems and tree development. It is the national standard for tree protection.

Committee inquired about unintended consequences that might arise from enacting this ordinance, whether the ordinance could be effectively enforced and what due process would be afforded to residents appealing a Staff decision, and whether the Town could achieve the goal of large tree protection through means other than legislation, such as educational outreach.

Committee asked for additional information on this matter, such as:

- 1.) What additional expectations and costs to residents might flow from imposing ANSI 300 standards for all pruning and tree protection activity?
- 2.) How this ordinance would be enforced for residents doing yard work as well as hiring contractors? Could ordinance be enforced effectively?
- 3.) What would be appeal process for residents denied pruning request by Town?

#### **Public Questions/Comments:**

Council member Mark Howard, 1820 Central Avenue, asked if tree pruning protection would apply to select tree specimen or to all trees based upon minimum size.

Zoning Administrator Henderson noted all trees in excess of 16" dbh would be afforded this protection, except those trees on the Town's invasive species list.

Wayne Guckenberger, 2105 Pettigrew Street, asked about tree pruning related to construction on a lot, especially new construction.

Zoning Administrator Henderson noted Staff works closely with owners with construction matters to provide flexibility regarding trees on lots under development.

Luke Lewis, 2101 Pettigrew Street, submitted current tree protection process seems to work fine; questioned why the Town would need another regulation? Suggested public outreach and communication would be a better, first step for the Town, in lieu of enacting another ordinance.

Susan Middaugh, 2420 Raven Drive, noted that with large tree pruning residents normally retain a professional arborist or landscaping company. Enforcement of a tree pruning ordinance could be accomplished through the professional pruning company's business license and permit.

Kimberly Brannon, 2108 Pettigrew, asked if a pruning permit requirement would create a work delay and how long the review process would take.

Zoning Administrator noted that the review process could be accomplished digitally with applicants sending Staff an email with photos and a site plan/application; thereafter Staff would be able to visit the site and inspect the tree.

**MOTION: Councilmember Clark recommended to Council that the Town begin with an educational approach to residents regarding tree pruning and protection, as outlined in ANSI 300 standards; seconded by Mayor O'Neil.**

**Discussion:** Committee noted the Town could review the efficacy of educational outreach initiatives and reserved the right to enact an ordinance in the future, if needed. The Tree Commission could be tasked with developing an educational outreach program with Staff.

**Call for the question: MOTION UNANIMOUSLY PASSED.**

### **5. Island Entrance Sign (Ben Sawyer Bridge): Review and Discuss**

Background: Town residents and the Park Foundation volunteered funds to beautify the entrance of the Island from Ben Sawyer Bridge with landscaping and replacement of the current "welcome" sign. Council has held numerous discussions on the sign design and received public input at each meeting. This Committee discussed the sign design at its July meeting and recommended a simple sign design to Council.

Status: Council member Clark is scheduled to meet with the Park Foundation board on August 30, 2016 to obtain their feedback on a proposed simple sign design: no tide clock and room for potential electronic board in the future.

Comptroller Blanton noted a Town employee designed the Town's logo and he is available to offer sign design options to the Town. Chair Langley asked that the Town employee forward his

designs to the Town. Currently the Town is receiving unsolicited sign designs by companies and those designs are being archived.

Council member Clark plans to offer a report of his meeting with the Park Foundation at the Council Workshop on September 12, 2016

Committee deferred any additional action on this matter pending September Council Workshop.

## **6. CRS Program for Public Information Committee – Review recommendations**

Zoning Administrator Henderson:

- Town participates in the Community Rating System (CRS) Program that is part of the National Flood Plain Initiative Program (NFIP).
- The Public Information Committee (PPI) is an educational outreach initiative of the CRS program; the Town has established a local PPI Committee.
- The Town's PPI Committee is comprised of the Planning Commission, insurance representatives and Town Staff. This Committee has established a draft outreach program to educate residents on flood plain risks and options.
- Planning Commission has approved the draft text of the PPI
- Next step: forward draft PPI text to FEMA for review/feedback
- Then forward FEMA reviewed PPI text to Council for its review and potential approval. Program implementation would follow Council program approval.

Council member Clark asked when the Town might expect the promised updated FEMA maps. Building Official Robinson noted the maps are due in September.

Council member Sarah Church, 1655 Atlantic Avenue, asked if there would be any automatic changes to flood elevations when the maps are published.

Building Official Robinson noted that Charleston County, as a whole, has 180 days to appeal the maps and there may be an appeal. The question Town Staff is working to discern is whether the appeal process will delay the Town's ability to adopt the FEMA flood maps if Charleston County has pending appeals.

There being no further business, the meeting was adjourned at approximately 10:13AM (Mayor O'Neil motioned; Councilmember Clark seconded; unanimously passed)

Respectfully submitted,  
Rita Langley, Chair  
Land Use & Natural Resources Committee

**ADMINISTRATION  
COUNCIL WORKSHOP  
September 12, 2016**

**Chairman Mark Howard  
Members Sarah Church and Susan Middaugh**

All matters relating to oversight of implementation of the following Town administrative functions: personnel; licensing; Town Attorney; court; rules; solicitation for Boards and Commissions; administrative infrastructure; communications and community outreach.

**I. Matters for Action by Council**

A. None

**II. Matters for Discussion by Council**

A. None

**III. New Matters Presented to Council**

A. Brief review on Term expirations of Boards & Commissions seats

1. Brief review of seats numbers and location
  - 2 - Board Zoning Appeals
  - 1 - Election Comm.
  - 2 - Tree Comm.
  - 4 - Design Review Board

Total: 9 seats

2. - Review Recruitment Timeline (target August 16, 2016 Council Meeting for review of applications and appointments)
3. - Review application and questionnaire forms

**IV. Matters Pending Further Action Taken by Council**

A. Archiving Old Records

A vendor has been retained to digitize and archive Town documents. Work will be conducted in the near future.

B. Town Communications Plan

Staff is developing an RFP for a municipal website, anticipating release for bid within a month. Audio/video technical requirements have been identified and incorporated in the new Town Hall/Police Station project, with the goal of improving public communications.

## PERSONNEL REPORT September 2016

Activity as of Tuesday, September 6, 2016

### **HIRINGS/RESIGNATIONS:**

Fire Department: Ryan North, Firefighter, resigned eff August 17, 2016  
Christopher McDaniel, Asst. Chief, retired eff September 2, 2016

Administration Department: Maria LoRusso, Clerk of Court, retired eff September 9, 2016

Design Review Board – Four (4) Seats (Ilderton, Wright, Craver & Webb)

**Status: Applications due 12Noon, Monday, September 12, 2016 (Extended deadline)**

**Application packages are available online at <http://bit.ly/SIBoards>**

Advertisement: Multiple ads run in Post & Courier (last ad to run Sunday, September 11, 2016); Town E-Newsletter publications and ad to run in Island Eye News on Friday, September 12, 2016

# **WINTER GARBAGE COLLECTION SCHEDULE**

**Household Garbage: Tuesdays**

**Bulk/Yard Debris: Wednesdays**

**Recycling: Alternating Wednesdays**

Please remember that all trash must be placed in roll-out carts. On the date of collection, roll-out carts should be placed on the curb by 7:00 a.m. and removed by 7:00 p.m. For more information visit [www.sullivansisland-sc.com](http://www.sullivansisland-sc.com).

**WATER AND SEWER AGENDA  
COUNCIL WORKSHOP**

**Committee Chair:** Susan Middaugh  
**September 12, 2016**

**Committee Members:** Mark Howard, Bachman Smith

**Committee Charge:** All matters relating to the Water and Sewer Department and Systems.

**I. Monthly Report from Mr. Gress**

**II. Matters for Action by W&S Committee**

Approval of minutes for W&S Committee meeting on August 25, 2016

**III. Matters for Discussion by Council**

FEMA Grant update

SRF Loan for I&I Phase II update

Poe Park site survey & playground plan update

Fence at Water Utility site at Sta 17 & Middle St. update

**IV. Matters for Action by Council**

None at this time

**V. New Matters Presented to Council**

The next W&S Committee meeting is scheduled for Thursday, September 29, 8:30 AM

NOTE: This is a change from the previously scheduled Sept. 22 date.

**VI. Pending Items**

1. Revision of Appeals Policy and Procedures
2. Rate study – in progress
3. CWS contract revisions – in progress
4. Poe Ave / Hennessey sewer line improvements – on hold

# Town of Sullivan's Island Water & Sewer Department

Manager Greg Gress  
843-883-5748

## Monthly Water Report For August 2016

**FLOW:** Distributed 12.480 MG this month, with a daily average flow of .390 MG and a Daily Max of .529 MG

**SALES:** ??? MG billed (*all water*) with a daily average of 0.??? MG. (10.612 MG billed in August last year with a daily average of 0.342 MG).

**RED WATER:** No operational problems

**DISTRIBUTION SYSTEM:** Two Total Coliform positive samples this month. Both due to improper sample handling by operator. All repeat samples were negative. This has triggered a level one self-assessment according to the new Total Coliform Rule and will be submitted to DHEC within 30 days.

**WATER LINE PROJECT:** Reviewed 90% drawings with engineer. Waiting on SCDOT comments. Should have final drawings mid-September. Will need to install a few road crossings ahead of SCDOT road resurfacing if given enough notice as to when the resurfacing will take place. Waiting on a schedule from the SCDOT. One across the causeway (Sta 22 ½) at Myrtle and two across Jasper at Station 24 and 26.

Town of Sullivan's Island  
Water & Sewer Department  
Manager Greg Gress  
843-883-5748

**WATER PLANT:** Site demo is complete. Awaiting W&S committee review of site design/layout proposal by Herlong and Parker.

**WORK ORDERS:** 8 check for leaks; 0 frozen pipes; 0 monthly rereads; 0 misc. customer complaint; 0 replace customer shut off; 5 turn on; 5 turn off; 47 locates; 5 install irrigation meter; 1 remove irrigation meter; 6 irrigation quote; 15 read meter; 5 meter box repairs; 0 disconnect delinquent acct; 0 reconnect delinquent acct; 1 pulled meter for demo; 2 reinstall meter from demo; 0 backflow inspection

**CHEMICALS:** Used 49 gallons of phosphate.

**OTHER:**

Town of Sullivan's Island  
Water & Sewer Department  
Manager Greg Gress  
843-883-5748

Monthly Sewer Report  
For  
August 2016

*COLLECTION SYSTEM:* No operational problems

*SEWER LINE PROJECT:* SRF loan application has been submitted for Phase II I&I Reduction Project. SRF still needs bid doc's for Poe Ave materials. Anticipate receiving loan packet by end of September. Phase II is anticipated to begin this fall with some capital rehab and replacements from Phase I grouting project. Some of Poe Ave Sewer Main Line Replacement project to be included in Phase II I&I Reduction Program. Approximately 120K worth of work cannot be funded through SRF.

*LIFT STATIONS:* Continue to have over time call outs for pump loss of prime alarms. Communication between SCADA radio systems has failed due to tree foliage. We will need to trim some branches around the Lift Stations. A new 50' pole will be installed at LS#5 in September to regain uninterrupted communication from this Station.

*FLOW:* Processed 14.714 Million Gallons this month, with a daily average of 0.475 MG and a maximum weekly average of .511 MG. Rainfall total was 5.36 inches.

*SALES:* ??? MG billed this month with a daily average of 0.??? MG. (7.440 MG billed in August last year with a daily average of 0.240 MGD).

*HEADWORKS:* Screenings press still having some control issues but working.

*OXIDATION DITCH:* No change in structure since last report.

## Town of Sullivan's Island Water & Sewer Department

Manager Greg Gress  
843-883-5748

**CLARIFIER:** Both Clarifiers have been blasted and painted and are back in service. Both Clarifier drive gearboxes will need to be replaced.

**OUTFALL:** No operational problems.

**BIOSOLIDS:** 31 cu yd. dry to landfill. 0 gallons liquid sludge hauled to MPW and 0 gallons to NCSD.

**CHEMICALS:** 318 lbs. of chlorine and 111 lbs. of sulfur dioxide used for the month.

**COMPUTER SYSTEMS:** No operational problems.

**WORK ORDERS:** 47 locates; 0 pool filling permit inspection; 0 sewer connection inspection (first time); 0 sewer connection inspection (sewer replacement); sewer reconnect inspection (reconnect from a demo); 1 sewer disconnect inspection (disconnect for a demo); 0 grease trap inspection; 0 install new tap; 0 repair cleanout; 0 back up; 0 sewer adjustment app.

**OTHER:**

Town of Sullivan's Island  
Water & Sewer Department

September 6, 2016

Windy Smith  
Environmental Compliance Coordinator  
Water Enforcement Section  
2600 Bull Street  
Columbia, SC 29201

Dear Ms. Smith,

Enclosed please accept the Bacteriological Analysis report for the monitoring period from August 1, 2016 to August 31, 2016. Please note we had two TC+ samples this month as indicated on the attached form. Repeat and follow-up samples were all negative. A level 1 self-assessment is being conducted and will follow. We feel the TC+ were the result of improper sample handling by the operator.

Should you have any questions please contact (843) 883-5748.

Respectfully,

A handwritten signature in black ink, appearing to read "Greg Gress".

Greg Gress  
Water & Sewer Manager  
Town of Sullivan's Island

# Bacteriological Analysis Sample Summary

1. Please fill out page 2 of this form if you have a total coliform positive sample and repeat samples.
2. Submit this form to SCDHEC along with a copy of your laboratory's chain of custody no later than ten (10) days after the end of the compliance period.

PWS ID	S	C	1010003
PWS NAME	Town of Sullivan's Island		
COMPLIANCE PERIOD	08/16		
CYCLE	M		

(Q)-QUARTERLY (M)-MONTHLY

CHLORINE RESIDUAL	2.28
Lab ID measuring chlorine residual	10005001

# OF INITIAL SAMPLES	6
# OF INITIAL TC POSITIVE SAMPLES	2
# OF E. COLI POSITIVE SAMPLES	0
TOTAL COLIFORM ANALYSIS METHOD CODE	Colitag
E. COLI ANALYSIS METHOD	Colitag (Fluorescence)
Lab ID	10005001
SIGNATURE	
Date	09/06/2016

Within 24 hours of learning of a total coliform-positive (TC+) sample result, REPEAT samples must be collected and analyzed for total coliforms:

- One REPEAT sample must be collected from the same tap as the TC+ sample.
- One REPEAT sample must be collected within five service connections upstream of the TC+ sample.
- One REPEAT sample must be collected within five service connections downstream of the TC+ sample.
- If the system is served by Ground water then a Triggered Source sample must be collected prior to treatment from each source in use at the time the total coliform-positive sample was collected. The number of samples taken PER WELL must equal the number of positive TCR samples. If you collected three TC+ samples, then three well samples must be taken at EACH WELL that was in service at the time.
- The triggered source water sample must be analyzed for the presence of *E.coli*.
- If any triggered source water sample is *E.coli*-positive, the Ground Water system (GWS) must either take corrective action, as directed by the state, or the GWS must take 5 additional source water samples within 24 hours.
- If the GW system Purchases some or all of their water they must notify the wholesale system (s) within 24 hours.

If any REPEAT sample is TC+:

- The system must analyze that total coliform-positive culture for *E.coli*.
- The system must collect another set of REPEAT samples, as before, unless the *E.coli* MCL has been violated or an assessment has been triggered.

For a system on quarterly monitoring, a TC+ result requires a minimum of three ROUTINE samples be collected the following month.

**CALL SCDHEC on the same day you learned of the *E. coli*-positive (EC+) result, or by the end of the next business day if the result came in after business hours**

**Please submit a copy of your laboratory's chain of custody along with this form.**

**Bacteriological Analysis Individual Samples (Part 2)**

**PART 2 CAN BE USED FOR ALL TC+ SAMPLES AND ASSOCIATED REPEATS AND SOURCE WATER SAMPLES.**

# Town of Sullivan's Island Water & Sewer Department

843-883-5748

[ggress@sullivansisland-sc.com](mailto:ggress@sullivansisland-sc.com)

September 12, 2016

Windy Smith  
Environmental Compliance Coordinator  
Water Enforcement Section  
2600 Bull Street  
Columbia, SC 29201

Dear Ms. Smith,

Enclosed please accept our Level One Self-Assessment for Bacterial Contamination report for the monitoring period from August 1, 2016 to August 31, 2016. Please note we had two TC+ samples this month as indicated on the monthly report form previously submitted. Repeat and follow-up samples were all negative. We feel the TC+ were the result of improper sampling and handling of sample by the operator.

Should you have any questions please contact (843) 883-5748.

Respectfully,

A handwritten signature in black ink that reads "Greg Gress".

Greg Gress  
Water & Sewer Manager  
Town of Sullivan's Island

## Level 1 Water Quality Assessment for Bacterial Contamination

System Name <i>Town of Sullivan's Island Waters &amp; Sewer Authorities</i>	System Number <i>1010003</i>	Population Served <i>2000 people</i>
System Mailing Address <i>2051 Gull Drive Sullivan's Island, SC 29482</i>	Contact Phone <i>843-883-3947</i>	System Capacity <i>750,000 gallons</i>
Source Type: Groundwater / Purchase Groundwater / <u>Purchase Surface Water</u>		

### General:

		Issue Description	Corrective Action & Date
Were there any operation or maintenance activities that could have introduced coliform bacteria?	Y N		
Were there any visible indications of unsanitary conditions?	Y N		
Was there any unauthorized access to the facilities?	Y N		
Did the system lose pressure?	Y N		

### Source Assessment *\* We purchase surface water from Charleston Water Systems. No wells*

		Issue Description	Corrective Action & Date
Are there any obvious contamination sources within a 100-foot radius of the wellhead?	Y/N		
Have there been any spills or other disturbances within a 100-foot radius of the well?	Y/N		
Is there evidence of standing water near the wellhead?	Y/N		
Is the sanitary seal intact?	Y/N		
Is the well vent screened?	Y/N		
How far does the casing extend above grade?			
Is the wellhead and piping secured to prevent unauthorized access?	Y N		

### Storage Assessment *tank is not online or used to pressurize the system*

Tank name/site location <i>Jasper Tank corner of Jasper St. &amp; Station 25 St.</i>	Tank capacity <i>100,000 gallons</i>	Type: Bladder / Pneumatic / <u>Atmospheric</u>
--	---	--

		Issue Description	Corrective Action & Date
Has there been any recent work done on the tank?	Y/N		
Are the overflow and vents properly screened?	Y/N		
Is the tank and tank site secured to prevent unauthorized access?	Y/N		
Could the physical condition of the tank be a source of contamination?	Y/N		

If a pressure tank, is it maintaining an appropriate minimum pressure?	<input checked="" type="radio"/> Y <input type="radio"/> N <input checked="" type="radio"/> N/A		
If a pressure tank, is it waterlogged?	<input type="radio"/> Y <input type="radio"/> N <input checked="" type="radio"/> N/A		
Is the tank being maintained properly?	<input checked="" type="radio"/> Y <input type="radio"/> N		
When was the last time the tank was cleaned, painted, or coated?	<input type="radio"/> Y <input type="radio"/> N	September 30th 2015.	Cleaned & Pressure washed.
Is the tank deteriorated or leaking?	<input type="radio"/> Y <input checked="" type="radio"/> N		
Other comments on storage. This tank is for emergency use only. It is isolated from the system until needed. Monthly sampling ensures safe water in tank.			

### Distribution System Assessment

		Issue Description	Corrective Action & Date
Repair Contractor name and number: Town of Sullivan's Island water & Sewer Authorities. 843-883-3947			
Were there any recent low-pressure events in the distribution system?	<input type="radio"/> Y <input checked="" type="radio"/> N		
Has there been any recent distribution system flushing?	<input type="radio"/> Y <input checked="" type="radio"/> N		
Were there any main breaks, repairs, or additions?	<input type="radio"/> Y <input checked="" type="radio"/> N		
Are there backflow devices present or other indications of cross-connections?	<input type="radio"/> Y <input checked="" type="radio"/> N		
Other comments on distribution:			

### Sample Site Assessment

2nd Sample site that put us in Level 1 assessment started to back.

Sample tap location (address): 3222 Middle St.	Type: <input checked="" type="radio"/> Outside hose bib <input type="radio"/> Inside sink <input type="radio"/> Other
Sample tap condition: <input checked="" type="radio"/> Good <input type="radio"/> Fair <input type="radio"/> Poor	

		Issue Description	Corrective Action & Date
Are there any treatment devices at this location?	<input type="radio"/> Y <input checked="" type="radio"/> N		
Has there been any recent plumbing work near the sample location?	<input type="radio"/> Y <input checked="" type="radio"/> N		
Was the proper sample protocol followed during collection and transport?	<input type="radio"/> Y <input checked="" type="radio"/> N	Did not flush line long & did not wear gloves.	Retraining & resampling on 8/4/16
Other comments on the sample site or sample tap?			

Other comments on the water system:  
operator to successfully perform a TC & C sample prior to working in lab. (by October 2016)

Print name of person completing form: Brian Jensen

Signature: 

Date: 9/18/16

2<sup>nd</sup> Positive Sample Site for August 2016.

Location: 2150 Gull Dr.

Type: Outside Hose Bib

Sample Tap Condition: Good

- No treatment devices.
- No recent plumbing work.
- No gloves were worn again, it was raining out with water leaking down from 2<sup>nd</sup> story porch above. Sampler has been spoken to, retrained. Sample site was resampled with samples taken within 5 sample sites up stream & down stream as well. All TC negative. 9/1/16

## ‘Grout First,’ Right Answer for Sullivan’s Island, S.C.

By Don Rigby

The year was 2004 and Greg Gress, manager of sewer and water for Sullivan’s Island, S.C., just completed the community’s CMOM self-assessment of its collection system. The 6-sq mile island located just north of Charleston hosts 80,000 ft of vitrified clay pipe (VCP) mainline sewers, 24,000 ft of 6-in. laterals (main to property line), 5,000 ft of force main, six pump stations and a wastewater treatment plant with a design flow of .570 MGD.

The condition assessment clearly indicated 90 percent of Sullivan’s Island problem was high infiltration and inflow (I/I) and 10 percent structural. Conventional wisdom suggests attacking structural issues first, but Gress thought otherwise and found an engineer who agreed with him.

James Shelton, vice president buried infrastructure for ARCADIS, sought to attack the problem at the source — excessive I/I — which was the underlying cause of the structural defects and here’s why:

- destabilization of the pipe bedding
- soil and sand reducing capacity
- SSOs from the collection system
- High flows at the WWTP
- Risk of effluent violations

Gress and Shelton weighed cost and technology alternatives for controlling I/I. Both had previous knowledge and experience with municipal grouting. Both attended grout schools to advance their understanding of methodology and supporting procedures. Their conviction for the low-cost, high-reward advantages of injection grouting led to a “grout first” approach with an innovative construction manager at risk (CMAR) delivery method.

The plan was to attack I/I holistically at all points where infiltration exacerbates system efficiencies and longevity. Credit to the foresight of Gress, he knew once the main’s, laterals and lateral connections were sealed, the groundwater table would rise and enter the system higher through the manholes.

For years in advance, on a limited budget, he and his staff adopted a top-down approach and reconstructed, resealed 200 of 325 manholes. The wisdom proved invaluable.

Phase 1 of the project focused on high-priority basins 5 and 6. A total of 38,000 ft of mainlines and the first 7 ft of the laterals and lateral connections were sealed with injection grout in order to control infiltration. Additionally, 1,900 ft of mainline was CIPL lined and eight cured-in-place pipe (CIPP) point repairs due to structural defects.

The result exceeded even Gress' and Shelton's expectations: reduced wet weather flow to the rehabilitated basins — 37 percent, I/I reduction — 46 percent. This was the encouragement Town Council needed to fund the next step of the three-phase program.

Phase 2 is now set to begin in October 2016 focused on Basin 3 for mainlines and lateral connections, but this time, the length of lateral sealing will extend to the property right of way versus the first few feet from the mainline.

## Major problem solved, new one created

Sullivan's Island is a coastal community with 2,000 year-round and seasonal residents, as well as tourists who

**Sullivan's Island is divided into six basins, from left, 1, 2, 3, 6, 4 and 5. Phase 1 of the project focused on the high priority basins — 5 and 6 — and Phase 2 is set to begin in October 2016 and will focus on Basin 3.**

come to visit the historic attractions. Rain events today now have new meaning. Previously, stormwater runoff was aided by the porous sanitary system, which swept away surface and groundwater to the wastewater treatment plant at high-expense to the ratepayer. Now, standing water after a rain event

is visible proof-positive of a sealed collection system. Stormwater management is the responsibility of Charleston County and Gress is working with those authorities on a study to resolve this new bittersweet issue for island residents and visitors.

## Validation of Insights, Assumptions and Beliefs

Shelton's experience determined the single biggest impact on the design life of grouting was not the grout, but the quality of installation. With the CMAR delivery method, ARCADIS assumed the majority of risk and adopted a highly collaborative working relationship with the primary grouting contractors (Bio-Nomic Services, Aqua Tri-State Grouting), technology vendor (Logiball) and material supplier (Avanti).

An onsite construction manager was present throughout the project; she and Shelton proceeded to question every process and procedure working with the field staff and technology providers to optimize the execution with constant focus on effectiveness and longevity. From this experience, new insights on engineering specifications, field implementation and new tooling to extend the reach of grouting are raising the bar on injection grouting and leading to new standards of operation:

1. Testing and packer pressures
2. Grout concentration
3. Use of latex as an additive

**Sealing the collection system provided a bittersweet result: standing water after a rain. Previously, stormwater runoff was aided by the porous sanitary system, which swept away surface and groundwater to the wastewater treatment plant at high-expense to the ratepayer.**

4. Gel times and temperature impact
5. Pumping rates
6. Stage and defect grouting
7. Pull-back and warranty tests

Shelton's belief in onsite inspection is key-critical to ensure engineering

specs are executed precisely by the contractor. To that end, he's the principal designer of an upcoming 2017 program from NASSCO's Inspector Training Certification Program (ITCP) specifically for injection grouting.

# WE HAVE THE TOOLS

## TO HELP YOU WIN THE BATTLE AGAINST INFILTRATION !

### Proven Infiltration Control With Chemical Grouting

Lateral Taps from the main up to 30 feet

Manholes  
Joints  
Service Line Connections  
The First Few Feet of the Service Line

Mainline Joints 6"-21"

Collapsible Packers for 24"-144"

Long Span Packers

Elliptical Pipes

High Pressure

Lateral Taps from 6"-30" mains

Lateral pipes from above ground access 4"-6" pipe

Gress' observations that the cleaning and jetting of sanitary sewers actually pulls in more sand and advances conditions for more infiltration, he was adamant about grouting immediately after jetting the lines. Shelton honored this request and built it into the step-by-step procedures and sequence of events for all five grouting crews on this project.

### Multiple Success Factors

If there was only one word that defined multiple success factors contributing to this project, the word is ENGAGEMENT.

Both the owner and engineer were vested in a positive outcome and the engineer-construction manager approach clearly defined risk and responsibilities, but the spec was challenging and required the contracting organizations to re-think everything they knew about injection grouting. The owner, engineer, inspector, contractor, technology and supplier relationships were all challenged, but their engagement for the greater good of the project, the grouting industry, and ultimately every

**Gregg Gress knew once the mains, laterals and lateral connections were sealed, the groundwater table would rise and enter the system higher through the manholes.**

municipal stakeholder led to several important improvements and proofs for the industry.

In many respects, this project led to new knowledge, new technologies, new practices and gave birth to the next generation of injection grouting standards. Bold statement, but unless you were there, unless you personally witnessed the spirit of cooperation, the leadership, and the engagement of all parties working as one, you'll have to accept this story as gospel knowing there's now a better solution to infiltration, that when executed properly, is both cost-effective and enduring.

Beyond Sullivan's Island, "grout first" can be the most cost-effective I/I solution for other communities and sewer districts choosing to be proactive prior to requiring more costly structural repairs. In the name of sustainability, in support of trenchless technologies, and in defense of ratepayers everywhere, injection grouting deserves thoughtful consideration from municipal stakeholders and consulting engineers.

**Don Rigby is vice president of marketing and education at Avanti.**

## TECHNOLOGY FOR LOCATING BURIED UTILITIES

**A gas line that penetrates a sewer/storm line can rupture with explosive results!**

Reduce possible risks that can occur from horizontal boring! Use the CUES LAMP II pipeline inspection tool to locate potentially deadly gas line crossbores and to help identify infiltration and inflow, pipe defects, and other structural conditions in lateral services and mainlines. Contact CUES for a free demo!

#### Fire Department Activities:

Fire Department performed 9 prefire plan updates

Tours given to 18 adults and 110 children.

#### Training:

Volunteer drill held on 8/3 and 8/17.

**SULLIVAN'S ISLAND POLICE DEPARTMENT  
MONTHLY REPORT SUMMARY  
AUGUST 2016**

8/01 – A complainant reported that someone had moved some large rocks from a concrete staircase.

8/01 – A vehicle was stopped due to it being parked in a suspicious location with two people in it, on approach of the vehicle the officer could smell burning marijuana, further investigation revealed that one of the occupant was in possession of the marijuana, the subject was charged and released.

08/02 – Officers observed a vehicle parked in the roadway with 2 people inside, during the investigation the officer observed two open containers inside the vehicle, upon further investigation a small amount of marijuana was found in the vehicle. The passenger took ownership of the marijuana and she was charged and released.

08/02 – A complainant reported that someone removed an A/C window unit from her family residence.

08/02 – A complainant reported that while working in the school with the after school program she was assaulted by a co-worker, the complainant refused prosecution.

08/05 – A vehicle was stopped for a traffic violation further investigation revealed that the driver was intoxicated, the driver was arrested, processed and lodged in the county jail.

08/06 – A vehicle was stopped for a traffic violation, during the stop it was learned that the driver's license was suspended, the driver was cited and the vehicle was towed.

08/06 – The complainant reported that an employee had removed a number of lottery tickets and removed them from the business without paying for them.

08/07 – A complainant reported that someone took his cell phone of his pile of belongings while he left it unattended on the beach.

08/08 – While on patrol an officer located two subject camping near Battery Gadsden, further investigation revealed that one of the subjects were wanted out of Tennessee, the subject was detained and lodged in the county jail for extradition.

08/08 – A complaint reported that someone had pushed over a sign and damaged a mailbox in his yard.

08/08 – A complainant reported that she left a laptop computer under desk in the school over the summer, when she returned for the new school year it was missing.

08/09 – A complainant reported that someone entered into a construction trailer by removing the lock and stole several items.

**SULLIVAN'S ISLAND POLICE DEPARTMENT  
MONTHLY REPORT SUMMARY  
AUGUST 2016**

08/15 - A complainant reported that while legally parked at the above location a vehicle struck the front end of her vehicle causing damage to her front bumper.

08/15 - A complainant turned in a check he found in his yard, the owner was the check was contacted and he stated that the check was reported missing and stop payment was issued, the owner requested the check be destroyed.

08/17 - A complainant reported sometime over the last year and a half their house was being renovated several items were removed.

08/18 - A complainant turned a wallet that he found on the causeway into the police department, the owner was contacted and he pick the wallet up.

08/19 - Officers responded to a medical call in which the patient had hung himself.

08/20 - A complainant reported that he believes someone may have broken into his residence, the complainant did report that a door jamb had been damaged and the door was found unsecured but reported nothing missing.

08/21 - A complainant reported that he had located a small gun safe behind his property; the safe was picked up and lodged into evidence.

08/21 - A complainant reported that a subject entered the place of business and placed a piece of merchandise into a bag and left the store without paying for the item.

08/24 - A vehicle was stopped for traffic violations, while conducting the stop several more violation were found, the driver was arrested and lodged in the county jail.

08/26 - A complainant reported that while she was away a bicycle was taken from under her house.

08/29 - A vehicle was stop for a traffic violation, while conducting the stop it was learned that the driver's license was suspended, the driver was arrested and lodged into the county jail.

08/31 - Officers assisted the medical personnel with a sick person who was not feeling well after walking on the beach.
