## 2016 Season Half Gone

Now that we are half finished with nesting, we have three fewer nests on the IOP and two more on Sullivan's than last year on July 1st. Our total is 22 at this time – 16 and 6 for our two islands respectively. These numbers are about average. We have had more false crawls than last year with 13 on Sullivan's and 11 on IOP. However, nesting is very high in South Carolina this year with over 1,400 nests in Cape Romain National Wildlife Refuge and 3,765 nests recorded statewide. Half of the nests on Sullivan's and all but one on the IOP have been relocated. Unfortunately there is severe erosion on both islands, especially near the inlets, and the turtles are not nesting much in the center sections where the dunes are good, so nests are being moved there for survival. Two nests have even been laid in sand traps on the golf course in Wild Dunes for lack of suitable dunes.

Since our loggerheads wait about two weeks between nests, some Turtle Team members have been lucky enough to have had returning nesters come back on their day on alternate weeks. This has happened to **Christel Cothran** and **Kristen Ayers** in as well as **Arlene Southerland** and **Diane Mullins** all in Wild Dunes, and to **Deirdre McMurtry** and **Jan Booth** on Sullivan's Island. **Susan Chagrin** and **Jackie Huffman** found two nests as well, but these were only one week apart, so not likely the same mother turtle.

We have had eight turtles strand on our two islands with all but one of them dead. These include three leatherbacks, all apparently hit by propellers, two Kemps Ridleys, and three loggerheads. The one live turtle was swimming behind the rock retaining wall near Station 9 on Sullivan's Island. It was chronically ill with poor blood values and is being treated at the Aquarium. Total strandings in SC now number 124.

*In Memory of **Caroline Huntley Stone, 1937-2016** diligent Turtle Team member and good friend to many of us. She is sadly missed.*

## Parking Reminders

New parking rules on the Isle of Palms and Sullivan's can be confusing. Although we are doing good work in finding and protecting turtle nests and cleaning the beach of trash, we have to obey these laws even at dawn. Here are some important pointers:

- Always make sure all tires are off the pavement.
- If you park on Palm Blvd, it is 4 feet off.
- Residential Area parking restrictions on the Avenues begin at 9 am, so don't park there any later – again, never on the pavement.
- Look for signs which tell you where not to park, especially near corners.
- If you have any doubt or questions, please ask me.

**Subject:** Zoning For Bike Taxi on Sullivan's Island

Hello Mayor Oneil,

This coming tuesday at the Town Council Meeting my business partner Zack Epstein and I plan on presenting a case in which Sullivan's Island would allow my company, Daniel Island Bike Taxi LLC to operate on the public streets of Sullivan's Island. I have been informed by Joe Henderson that because there is not specific zoning code listing the regulations of a Taxi service on the Island that I must first get code implemented by town council before receiving a business license, and I would like you on board.

We have been successfully operating on Daniel Island and Mount Pleasant during peak traffic events (Concerts, tennis tournaments, firework shows, and other special events) helping to reduce congestion on the busy streets by shuttling people from off sight parking to the epicenter. I believe we can be very beneficial to Sullivan's Island as I know parking and congestion have been a growing problem. We would be able to shuttle people from public parking areas like the School, towards the beaches and the restaurants making the off sight parking more appealing to the visitors of the Island.

We have been warmly welcomed by both Daniel Island and Mount Pleasant, and we have a number of respectable business owners, local politicians, and residents that we can call on as references to our outstanding character and business practice's. We also has a flawless traffic record as we diligently follow the traffic laws.

We want to be part of the solution, so please let me know if you have any further questions. Do not hesitate to call me or Zack at anytime.

Regards,

Hello Andy,

I am very glad to hear from you. Below I have attached all of the documents you requested plus a copy of our LLC. Please let me know if you have any trouble opening these documents and I will resend in a different format.

I briefly talked to Council Member Mark Howard and Mayor Pat O'Neil after my proposal, and I learned that my idea will likely be discussed during the next work shop. Mark thought these occurred on the first Monday of each month but he was not certain, and I found it unlikely to be the first Monday of July because that is the 4th. However, I would like to be present if at all possible to answer any questions that may come up. After all my brief two minute speech could not possibly cover all aspects of introducing new code like this, so please let me know when this will occur and if I may attend.

Please do not hesitate to call (336.391.2248) or email me or my partner, Zack Epstein (843.303.1888) at anytime, for anything.

Kind Regards,

ARTICLE XVII. - DUMPSTERS &gt;

**ARTICLE XVI. - RICKSHAWS<sup>[17]</sup>**

⋮

**Sec. 19-461. - The operation of rickshaws regulated.**

⋮

(a) City council hereby makes the following findings of fact:

- (1) The number of persons using the public streets in the Peninsula Area of the City of Charleston in the recent years has increased dramatically due to an expanded commercial use and the growing tourism industry. As a result, congestion on the streets in the Peninsula Area has increased because of a rise in the number of vehicles and pedestrians using the streets and sidewalks.
- (2) Rickshaws pickup and discharge passengers at numerous locations in the Peninsula Area and tend to congregate at or near restaurants, places of assembly, and the market area. The continued proliferation of rickshaws in the Peninsula Area tends to create a carnival or theme-park atmosphere which is destructive of the historic and traditional ambiance of the Peninsula Area which is substantially made up of Eighteenth and Nineteenth Century structures. Therefore, in order to protect the historic and traditional ambiance of the Peninsula Area, city council finds it necessary to regulate rickshaws operating on the public right-of-ways in the Peninsula Area.
- (3) Rickshaws, as hereinafter defined, are by their design and nature, slow moving, and pose a potential danger for those using the vehicles and the streets. The unregulated operations of rickshaws on the streets of the Peninsula Area would add to the congestion in the streets and would greatly inconvenience, if not endanger users of the streets in the area. As a result, it is in the public interest, and for the public's safety and welfare, that the users of the public right-of-ways be protected from unregulated vehicles which hinder travel or which pose dangers or distractions which give rise to accidents and inconvenience.
- (4) The city approved a rickshaw pilot program July 20, 2010, authorizing additional rickshaw tokens to be distributed for night time use. As a result of the token pilot program, city council believes that there is an increasing demand for the use of rickshaws by residents and visitors in the district and that a limited increase in the number of rickshaws permitted in the district is in the public's best interest;
- (5) City council further finds, for the same reasons, that electric, oil or gasoline powered rickshaws in operation in the Peninsula Area would not be in the public interest.

(Ord. No. 2007-137, § 1, 7-17-07; Ord. No. 2011-29, § 1, 4-12-11)
